Hi Anthony;

Thank you for contacting the Yukon Green Party with your questions.

Because we are a small party with only volunteers to rely on, we have not had the manpower necessary to answer all of these questionnaires coming in from multiple organizations.

Please feel free to visit www.yukongreenparty.ca and have a read through our policy and platform. Although many organizations may be able to find the answers to their questions in our policy book, your questions are very unique and I am quite sure you will not find any policy addressing your questions.

Please feel free to draft two or three bullet points to address your concerns, and we would be glad to insert them after approval from the membership.
