Dear Mr. Gucciardo,

On behalf of the Yukon Party and Premier Darrell Pasloski, thank you for your letters from the Royal Astronomical Society of Canada: Yukon Centre. We found the information about your group's work and the economic, scientific and experiential potential informative. You have brought forward an interesting and unique perspective.

A reelected Yukon Party would invite you and/or representatives from the Yukon Centre to meet with us to discuss in more detail how we could be of assistance in preserving our night-sky heritage. We also certainly commit to looking at the financial implications and the potential benefits of requiring the use of warm-white, or amber coloured night-sky friendly exterior lighting in Yukon Government property going forward.

Again, thank you for taking the time to contact us and we hope to meet with you in the near future as a Yukon Party government.

Best regards,

Linda Hillier  
Yukon Party President
